Tankards & Christening Mugs

All prices listed include the mug/tankard with an engraving on one side. The positioning of the engraving is negotiable; however, some styles cannot be engraved in certain areas due to the curve of the mug or tankard.

Additional cost for Engraving on both sides of the mug/tankard, or engravings that wrap around the mug.

Additional cost for Logos or crests can be engraved, but the time frame may increase.

For an additional cost, a presentation box can be included with the order.

Allow 2 to 7 business days depending on stock availability.

Nearing the end of school years and sport seasons, orders will take longer to complete. An estimated time for completion will be given with order confirmation.

Metal finishes

As pewter is a softer metal, the engraving on these products will be deeper and clearer.

The stainless-steel mugs and tankards are harder, and as such will engrave on the surface, not to any depth like pewter.
